

## **South Dakota Manufactured and Non-Manufactured Exports by Country**

### ***Highlights***

- There are very noticeable differences in the destinations for South Dakota's manufactured and non-manufactured exports. By major market, the most prominent distinction was in Australia where its small, 1.3% share of South Dakota's manufactured exports was 44 times its negligible non-manufactured share. Other major markets where the manufactured share was higher included Asia (4 times higher), Mexico (3 times) and Latin America (2 times).
- Looking at the reverse side, Africa was the most notable case where its 9.7% share of South Dakota's non-manufactured exports was 16 times higher than its manufactured share. Other major markets where the non-manufactured export share exceeded manufactured included Canada (1.5 times) and Europe (1.3 times).
